

Invent a Species- Section 2

Creative Writing Project

This week you will be continuing on building/creating/designing your species that you worked on last week! Many of you did a great job, but please remember to use FULL sentences and a lot of description! Don't forget to colour your illustrations. Don't forget capital letters on names of species, planets, names, etc.

Section 2: Home/Environment

Where do your creatures live? **Describe in detail** their habitat and surroundings. Consider...

- Parts of the world they can be found or describe the planet/galaxy that they live in
 - Special conditions they need: temperature, climate, amount of space, places they need to avoid
 - Do they have enemies? What about their living conditions keeps them safe from their enemies?
 - Where do they live/sleep? Describe a typical home/shelter.
 - Include size, shape, and typical belongings they may have in their homes.
- **Draw** an outside view of an average shelter/home. **Draw** and label an inside floor plan of their home- include things that may be inside their home.
 - **Bonus-** if they don't live on Earth, draw what their planet looks like!

POST ILLUSTRATION AND WRITING TO FRESHGRADE WHEN FINISHED**
